

Use **GOOD SEARCH** to raise money for **OAHHS!**

**Good Search** is a search engine, like Google or MSN. Their goal is to help as many non-profits and schools as possible. They want to see organizations like ours do great works utilizing the funds that come from this service. Along with the funds though, they hope to have a powerful impact by creating a connection between the charitable causes and the people who search on their behalf.

Each Web search that uses **www.goodsearch.com** will generate approximately \$0.01 for the designated charity or school. If you think about how many times you search the Internet each year, and then add in all the searches from the supporters of your organization, it quickly adds up! To make sure the money goes to OAHHS, be sure to type in: Oconto Area Humane Society in the “Who do you GoodSearch for?” box!
